To: all Northern Power Products, Inc. (NPPI) customers

Re: **purchase of Northern Power Products, Inc. (NPPI)**

We are excited to announce that Engine Power has acquired the assets and operations of Northern Power Products, Inc. Effective today, NPPI has combined with Engine Power and we will operate as "One Team". As the longest tenured (44 years) Kubota engine distributor in the Americas, Engine Power brings extensive Kubota experience and knowledge to support your company. Additionally, since our founding 45 years ago, Engine Power has supported Ford products, Honda products, and nearly all off-road equipment markets (ex. power generation, sweepers, etc.). The integration of the Engine Power employees and the former NPPI employees will result in a very deep and capable team. **Our goal is to ensure that our service, and your experiences, remain at the highest level.** However, we do appreciate your patience and understanding as we integrate our team and systems.

Business will continue uninterrupted but will be conducted as Engine Power beginning today. We understand it may take a short time to replace NPPI with Engine Power as a supplier in your system. Therefore, we are happy to receive orders and payments made out to NPPI until that occurs. You may continue to see references to NPPI within our emails or other forms until those items are phased out. Engine Power will honor and fulfill all orders previously acknowledged by NPPI. Engine Power will also honor all quotations previously provided by NPPI. Our Eagan, MN facility will continue existing operations, and Engine Power is committed to maintaining a facility in this region long term.

Initially, you will continue working with your previous NPPI contacts, and there are no changes to your account management, product support, engineering, order processing, and accounts payable processes. Over time, introductions will be made to additional members of our deep support team, and we will introduce new support tools and processes that we expect will add to your customer satisfaction. Northern Power Products' previous owner and President, Brad Van Horn, will consult with Engine Power for a period of 6 months to ensure continuity.

Our newly combined "One Team" at Engine Power is excited to continue NPPI's legacy of providing your company with the highest quality products and service. We expect you may have questions or concerns. Please don't hesitate to reach out to me or any member of our team.

Thank you for your past and future business!

Regards,

A handwritten signature in blue ink that reads "B. Paulin".
